EDUCATION

GLA University   **Mathura,UttarPradesh(India)**
B.Tech in Computer Science with specialization AI&ML   *Expected Graduation, May 2026*
CGPA: 7.2

SKILLS

Programming Languages: JavaScript, TypeScript, C, Java, Python.
Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Material-UI, Ant Design, Sass, Styled-Components & Redux
Tools & Platforms: Android Studio, IntelliJ IDEA, PyCharm, Eclipse, AWS, Git & Github, Agile
Specialized Technologies: SQL, MongoDB, Codemirror, Socket.io, Docker

PROFILE SUMMARY

Targeting **Full Stack Developer** roles with an organization that offers opportunities to learn and contribute.
- MERN stack **(MongoDB, Express.js, React, Node.js)** with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

HireSphere   **(LINK) (GitHub)**
Tools: ReactJS, Node.js, Express.js, MongoDB, Tailwind CSS, ShadcnUi, Redux Toolkit
Developed a modern job portal application designed to connect job seekers with recruiters seamlessly, featuring advanced search and management functionalities.
Responsibilities:

Designed and implemented a responsive UI using ReactJS, Tailwind CSS, and Framer Motion for enhanced user experience.
- Built a scalable backend with Node.js and Express.js, integrated with MongoDB for efficient data storage.
- Developed features like user profiles, job search with filters, company dashboards, and an admin panel.
- Implemented secure JWT-based authentication and bcrypt.js for password encryption.
- Ensured seamless deployment using Docker and AWS.

Real-Time Chat Application   **(GitHub)**
Tools: MERN Stack (MongoDB, Express.js, React.js, Node.js), Socket.io, Tailwind CSS, Redux, JWT
A full-stack real-time chat application built using the MERN stack (MongoDB, Express, React, Node.js),
with features like real-time communication, user authentication, and modern UI using Tailwind CSS.
Responsibilities:

Implemented real-time messaging with Socket.io, allowing instant communication between users.
- Integrated user authentication (login/sign-up) using JWT, ensuring secure access with hashed passwords using bcrypt.js.
- Designed a responsive and intuitive chat interface using Tailwind CSS, with state management powered by Redux.
- Built a scalable backend using Node.js and Express.js, managing real-time communication and data handling.
- Connected to MongoDB for storing user data, chat messages, and authentication details.

ACADEMIC ACHEIVEMENTS

- Earned a certification in Full Stack Development, demonstrating proficiency in MERN stack technologies and project management.
- Led the college graphics designing team, organizing and managing various design projects and events, enhancing the team's creative output and visibility.
